Dear Maria,

Subsequent to the interview and evaluation process with us, we are pleased to offer you **Alphaa AI Fellowship - Generalist**, commencing w.e.f. **24 August, 2020 to 24 october, 2020** on the following terms and conditions:

1. The Company shall review your performance during this period in respect of your Fellowship and accordingly the period for carrying out Fellowship in our Company could be extended, at the sole discretion of the Management.
2. All Trade and professional secrets and other secrets or confidential information or methods of working made known to you during completing your Fellowship with us shall not be disclosed to any other third party.
3. You will have to submit the copy of the project to your project leader at the end of the program. You can seek permissions to display some of your work in the public domain, all else will be covered in "Non-Disclosure Clause" refer point 2.
4. You will report directly to the CEO's office.
5. In case of any changes in the terms and conditions mentioned above, the same shall be mutually discussed and communicated to you.
6. There shall be, at no point of time, employer-employee relationship between our company and you.
7. You will be governed by the rules and regulations of the Company, as applicable to the Fellows, which are in force at present and which may be brought into effect from time to time in future.
8. Your Fellowship performance will be your responsibility and the company holds all the rights to discontinue if the standards are not met.

## Program Highlights

**Duration:** 8 Weeks

1. Its an 8-week remote training program, where you will be working on various projects with your fellows in the program.
2. There are **no costs** attached to the program and hence we expect you to be connected with us and support us by contributing in course success by undertaking new fellow learning. This will allow us to roll out more learning programs that you can spearhead for those who lack opportunities.
3. You will need to devote at least 4 hours every day for this.
4. Each week you will have a new challenge at hand and our team will help you navigate as and when required.
5. It's planned as a peer to peer learning program so working as a team holds points.
6. In this program you will be responsible to mentor at least 2 new Fellows as assigned to you.
7. You will be required to submit a report in shared format by end of the program and a recommendation from your mentee fellows to earn **The Badge of Community Leader**.
8. You may choose to be attached to the program as a mentor post completion and request mentee assignment.
9. We are focusing on creating leaders who understand data and their core domain well enough to contribute to a data-driven organisation in whichever role they are. You will acquire an understanding of technology, marketing, design in addition to data science.

**For freshers and interested fellows, we may also offer positions within Alphaa AI or our Partner Organisation by the end of the program.**
